

4-Channel Compact H.264 Network Digital Video Recorder

- Digital Video Recorder offers you state-of-the-art, professional monitoring in an easy to install, easy to setup and easy to use package
- Even better, you can also securely access your system from practically anywhere in the world from almost any computer connected to the internet, or even from your 3G capable Smartphone.

- You're in total control of the DVR's recording modes - easily select your preferred resolution, frame rate and the amount of video compression. You can record from the four cameras for 120 days+ continuously onto the massive 500GB hard drive. You can transfer video incidents to USB flash drive to keep on your PC or forward to other parties. With its affordable price and features, this is a perfect starting point for a home or business looking for a cutting-edge security solution.

FST-SE4H2
